What's New in the?

SMS / IMS messages from ASC are encrypted with 256-bit AES keys generated by a random sequence of bytes, so they cannot be decrypted. ASC - Absolutely Safe Chat uses SSL 3.0 to transmit its messages. This means they can be 100% secured. It can also be made more secure by using the SSL 3.1 and TLS 1.0 protocols, which provide greater security than SSL 3.0. ASC - Absolutely Safe Chat's use of the OTP (One Time Password) technique makes it impossible for anyone - not even a hacker - to eavesdrop on your conversations. ASC - Absolutely Safe Chat uses a special type of RSA algorithm that generates keys of up to 32768 bits, far greater than the 128-bit AES keys used in the GSM (Global System for Mobile Communications) standard, and the 256-bit AES keys used in the IMT-Advanced standard. These keys enable a single ASC - Absolutely Safe Chat user to communicate with many other ASC users at the same time. ASC - Absolutely Safe Chat restricts other applications to specific times and, using Random Time Offset (RTO), periodically sends its messages to the connected ASC users after a chosen period. You can protect your conversations using ASC - Absolutely Safe Chat in two ways. First, with the use of an OTP, and then when using Random Time Offset. ASC - Absolutely Safe Chat Application Uses: ASC - Absolutely Safe Chat connects directly with your mobile phone's data network via the Internet or WiFi, via which it sends and receives messages. ASC - Absolutely Safe Chat is a powerful and

intuitive SMS message interface. Just type the text of the message you want to send, and ASC - Absolutely Safe Chat will take care of the rest. ASC - Absolutely Safe Chat also provides its users with a data log that lists all the text messages that the ASC - Absolutely Safe Chat application has sent and received. ASC - Absolutely Safe Chat allows up to 100 users to connect with each other in the same ASC - Absolutely Safe Chat network. If you like to chat with more than one person at a time, you can connect up to 100 users at the same time. ASC - Absolutely Safe Chat is 100% free to use, and the only user registration required is for the services provided by Telekom. There is no requirement to register ASC - Absolutely Safe Chat as a Vodafone or Orange customer, but you will have to register the ASC - Absolutely Safe Chat on your phone for use
