Several people present at the event, including its organisers, have given the Times their accounts of the attack. Ali Mohammad Sayeedi, a local resident, said police were told by relatives of the attackers that the clash erupted when a 30-year-old man confronted them about his family being hurt by a stray bullet. "He asked why they had shot his family members. They said that they were not armed," Mr Sayeedi said. "He was shot a number of times, including in his lungs and head. He has died." Mohammad Atallah Alikhelaei, another of the victim's relatives, said the shooting occurred when the men started fighting with a group of about 10 other people. He said the victim was taken to a local hospital where he was declared dead. The family later found out that he had been shot and taken to the trauma centre of another hospital in Balad. But Mr Alikhelaei said the victim's wounds were the same as those sustained in the shooting that wounded the other men. "The Balad hospital did nothing. They just said that he died of his wounds," he added. "They made our lives very difficult. This is how we treated our own family member." A number of local residents

The Effect of Sodium Intake on Blood Pressure, Body Weight, and Renal Function in Patients With End-Stage Kidney Disease. Patients with end-stage kidney disease are often hypertensive, have low potassium, and are at increased risk for cardiovascular disease. The National Kidney Foundation recommends salt restriction to achieve blood pressure control in this population. We assessed blood pressure, body weight, serum creatinine, and renal function in 33 patients before and after a 2-month period of sodium restriction to evaluate the effect of this dietary intervention on these parameters. We found a significant decrease in systolic blood pressure (SBP), diastolic blood pressure (DBP), and weight (P, this influence of the EU on Turkey must not be underestimated. Turkey's position has been strengthened on issues such as Cyprus, the Turkish zone, nuclear weapons, and NATO membership, and these issues are likely to remain important in EU-Turkey relations in the future. If Turkey continues to have a policy of engagement with the EU, it will increase the importance of EU-Turkey relations. This article is a revised and updated version of an article that originally
