Want to learn more about FIFA 22? How does the game look like? Check out the trailer! The official video release date for this new season is May 1st 2019. FIFA 22 is now available for all platforms: Nintendo Switch, Xbox One, Playstation 4, Playstation 4 Pro, Xbox One X, Nintendo 3DS, Wii U, iOS, Android and PC. Check out the complete release schedule here. FIFA® 22 gives fans the opportunity to discover never-before-seen ways to play. Whether it's featuring "Dynamic Intelligence" to help players find new ways to score, "Power Trak" to help make late runs a more realistic experience, and "Dynamic Companion" to provide immediate and personalized advice, FIFA 22 will put the unpredictable into every corner of the pitch. As the next chapter in the FIFA series, FIFA 22 delivers even more ways to play. With the ability to create and manage multiple player traits, celebrate a new dynamic system to unlock a player's fighting spirit, and collect and trade a series of distinct outfits, FIFA 22 is re-imagined to maximize in-game fun and to give players even more ways to play.

#1 FIFA Football Game FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.

#2 Real-Life Player Motion "Dynamic Intelligence" tracks a player's location, speed, acceleration, turning, jumping, diving and acceleration to make each player unique within the game. If this player has the ball, Dynamic Intelligence also takes into account where they are passing the ball, how much time they have to progress and other game-specific factors to create new, unpredictable ways to play.

#3 Advanced Player Traits The exact positioning, level of fatigue and physical state of the player can also affect a player's performance. For example, having a cramp or lacking endurance will reduce a player's running speed, while fatigue will slow the player's reactions. Players can work to recover during each match to stay at the top of their game.

#4 New Ways

Fifa 22 Features Key:

- Unparalleled player intelligence, Real Player Motion capture.
- New gameplay innovations including new dribble controls and a new Explosiveness Intelligence system.
- AI improvements which cause players to play more naturally.
- Improved goal celebrations, ball controls & responsiveness.
- New physics engine to accommodate a wider range of player skills and improve responsiveness.
- A new close control system that lends finesse to passing and shooting as you handle the ball.
- The ability to update your squad to the current state of the game. You can now choose your best XI or only your strongest XI to use from any lower team level.
- New award system that maintains player development through the life of your career.
- New broadcast presentation.
- FIFA 22 for PC available for losers. Let us know how it works.

FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.

GAME MODES

Career Mode - Live out your dreams as both a manager and a player in FIFA 22. Create the newest club

Fifa 22 X64

Developed by EA Canada in association with its video game development studios around the world, FIFA® is the world's #1 sports franchise and the top-selling soccer game of all time. Within the game, players are placed into the role of a football manager and tasked with leading a team through a series of competitions, including a wide selection of real-world leagues and tournaments, which are communicated to the players via FIFA's proprietary in-game messaging system. The ultimate goal is to become the best club manager in the world by completing the Juego del Pueblo, a single-season sporting challenge in which clubs throughout the globe compete head to head. What does that mean? When I say EA has revolutionized the experience of Ultimate Team (UT), it's not just me hyperbolic. The entire team at EA Canada has told me multiple times that the most important advancement in Ultimate Team is the fact we now have a virtual card pool. I want you to get a sense of how an average player feels: first, you play the game for a few weeks, adding players to your team as you see fit. Then, a few of those players start taking out one-in-four cards you have in your virtual arms in the online store—their boosters—and you start pacing around your house. Finally, you think to yourself, wait, I have four cards in my virtual hand that have no value at all, but these same players are at one-in-four. Now my only option is to get that fourth card from the virtual store, which is hundreds of dollars. Try that mindset when you first start playing. And it's just one of the ways our technology makes the matchmaking, owners, and players feel more authentic. So, why am I so excited about this development? I believe Ultimate Team has a ceiling, and I also think we're at the absolute peak of the game's greatest season. Why? Let's take the last five years—2015, 2014, 2013, 2012 and 2011—and break down the individual results. Season 2015 was the most rewarding in the franchise's history, with a record-breaking 26 trophies, including 11 individual titles: 11 trophies for the first time, and five different players winning the CFM Most Valuable Player. See, these are the years I'm talking about. These are the seasons that truly define
