between perfect answers and sensible answers - Option to have a turn limit - Report bugs - Ability to start playing the game from a random question or from an already saved configuration - Provide a basic tutorial - Improve the colour scheme - Suggestions and

corrections - Provide
a more thorough
explanation of the
answers 3a67dffeec

MEBall is designed to emulate the classic use of the famous Eight Ball. The classic Eight Ball is a well known parlor game that is played with a Ping Pong ball placed on a rubber mat, by lighting up a bulb on the left side of the Eight Ball

using a light pencil. The program allows you to insert two questions and instantly get the answer from the 8 Ball. The program can be used with and without a mouse.

MEBall Features: -

Add and remove

unlimited questions -

Choose the style of the question

(True/False, Yes/No) -
One line answers -
Display the answer
immediately after
the question is
entered - Choose
from several
questions and even
select a random one
- Can be used with
and without a mouse
- Dynamic interface -
Various colours - Can
be used as a desktop

icon or a portable application - The title and the description can be set - You can create as many people as you want to use MEBall. - The questions or the titles can be saved ...Engineer Build Electronic parts for both commercial and residential customers Engineers required: I

am looking for an
electronic technician
who can perform the
following tasks ·

Excellent in soldering

· Good in AutoCAD ·

Good in Mechanical
and Electrical design

· Good with

understanding of all
electrical

components The

candidate must be

willing to: · Learn

how to read and
work on electrical
schematic diagrams ·
Learn how to read
and work on
electrical schematics
· Learn about
electrical power
distribution and fault
analysis · Learn
about arc welding,
brazing, mild steel
welding · Welding
copper pipe I am
