Part of the ESET research team since February 2014, ESET NOD32 Antivirus is the world's most advanced software for business users, delivering the best protection against viruses, spyware and other forms of malicious software. By using automated technology, ESET NOD32 Antivirus can detect unknown threats when they arrive on your PC. Fast scanning speeds and a secure sandbox technology help ESET NOD32 Antivirus stop threats that do manage to get inside your PC, without your having to do anything. This all adds up to less time spent on monitoring your PC, and the peace of mind that comes with a powerful protection program. ESET NOD32 Antivirus now comes with a free USB Live CD that means you can take a full, zero-footprint look at your PC's security, even if you don't have network access to your PC. You can also use the DOS mode. Press the CTRL key and select either repair or troubleshoot from the list. When the program is finished scanning, it will attempt to automatically repair the problems. If it fails, select repair all. With more than 60 million users, McAfee has one of the most comprehensive brands in cybersecurity, and the best software and solutions in the industry.
