You can also add description to the component. Edraw Office Viewer ActiveX is a file view control. You can upload and download the file like Microsoft Word. You can also obtain the file name, size, creation date, last modification date, last access date of the file. You can also open a hidden files

---

such as the cookies, the Local Disk, the Temp directory. You can also upload a file between server and client via HTTP/FTP. The file is encoded in base64. You can also upload a zipped file into the folder. You can open an office file or a password protected file. Edraw Viewer Control is a powerful ActiveX control designed for embedding MS Word documents into your own applications. By embedding Microsoft Word documents, you can provide a user experience that is similar to the standard Microsoft Office application. Edit a file, send it off to the printer, look at an address book, read a web page and then close it down again. It will be easier to use the Edraw Office Viewer than a standard MS Word, because it is a standalone Windows control. The MS Word control is usually part of a separate application. 5ec8ef588b
